EGU :	European Geosciences Union
ESA :	European Space Agency
EUG :	European Union of Geosciences
NASA :	National Aeronautics and Space Administration
ZAMG :	Zentralanstalt für Meteorologie und Geodynamik

# 1. INTRODUCTION

## 1.1. PURPOSE

The purpose of this report is to give some information on preparation and conduction phase of the 2<sup>nd</sup> dissemination workshop.

## 2. PREPARATION AND CONDUCTION OF THE 2<sup>nd</sup> DISSEMINATION WORKSHOP

### 2.1 PREPARATION OF THE 2<sup>nd</sup> DISSEMINATION WORKSHOP

2<sup>nd</sup> Dissemination workshop was held on April 18, 2016 at the ZAMG in Vienna, Austria during the same week EGU general assembly was held. EGU (egu.eu), the European Geosciences Union, is Europe's premier geosciences union, dedicated to the pursuit of excellence in the Earth, planetary, and space sciences for the benefit of humanity, worldwide. It was established in September 2002 as a merger of the European Geophysical Society (EGS) and the European Union of Geosciences (EUG), and has headquarters in Munich, Germany.

2<sup>nd</sup> Dissemination workshop was co-organized with the COST Action ES1404 (harmosnow.eu), entitled, "A HARMONISED MONITORING OF SNOW FOR THE BENEFIT OF CLIMATE CHANGE SCENARIOS, HYDROLOGY AND NUMERICAL WEATHER PREDICTION". This COST Action on SNOW aims at building a better connection between snow measurements and models, between snow observers, researchers and forecasters, for the benefit of various stakeholders and the entire society. The main objective of the Action is to enhance the capability of the research community and operational services to provide and exploit quality-assured and comparable regional and global observation-based data on the variability of the state and extent of snow. There are 28 COST countries and Andorra participating to this Action shown in Table 2.1.

*Table 2.1.: Participations to the COST Action ES1404*

Country	Date	Status
<a href="#">Austria</a>	31/07/2014	Confirmed

Total: 28

## **COST International Partner Countries**

<b>Institution Name</b>	<b>Country</b>
Snow and Mountain Research Center of Andorra	Andorra

The idea of co-organizing 2<sup>nd</sup> dissemination workshop with this COST Action and during EGU conference was to increase number of participation and interest international level. By doing so we aim to disseminate products and services of the SEN3APP project to wider community and possible future end-users. The workshop title was chosen as “Remote Sensing Products of Cryosphere using Sentinels” so that we can cover both SEN3APP project and COST Action ES1404. Advertisement and registration were done at both webpages. We also asked Management Committee (MC) members of 29 countries of the COST Action to distribute information about the workshop to their networks.

Workshop pages can be found in both [http://sen3app.fmi.fi/index.php?style=main&page=Workshop\\_2](http://sen3app.fmi.fi/index.php?style=main&page=Workshop_2) and <http://harmosnow.eu/index.php?page=18.04.2016,%20Vienna>

In order to make our workshop more attractive for wider users we invited two key speakers Pier Giorgio Marchetti from European Space Agency (ESA) and Edward Kim from National Aeronautics and Space Administration (NASA).

## **2.2 CONDUCTION OF THE 2<sup>nd</sup> DISSEMINATION WORKSHOP**

2<sup>nd</sup> Dissemination workshop was held on April 18, 2016 at the ZAMG in Vienna, Austria successfully. The workshop has lasted the whole day, including training session with the users which was after the lunch. The agenda can still be downloaded from the project website.

### **Call for the workshop**

The call for the workshop is made by the project website, both in the “News” and “Notice Board” sections. The call includes a registration form, agenda and the hyperlink to the webpage prepared for the workshop.

A registration form for the workshop has been prepared using Google Forms. The form includes name, surname, affiliation and e-mail address information of the participant.

The registration responses are shown in Figure 2.1 below.

**Figure 2.1:** Registration responses directly from the registration page

## Participation

33 people has participated the workshop in person and participation signed sheet is given in Figure 2.2.
